

It is a company that combines over 50 years of know-how with appropriate technology in furniture production, design investment and differentiation, in meeting delivery dates, quality and detail of the products.

The Isaloni is a place of excellence for the dissemination of our creations, an excellent opportunity to promote our work and meet potential clients as you.

Our company has a 5340m2 area and has different product development areas: technical office, design, production control, commercial, administrative and a wide range of production departments such as cutting, sheet, machining, cabinetwork, wood carver, finishing, assembly/packaging, upholstery, allowing us to control our furniture from creation to the time they will be delivered to our clients.

With about 50 qualified employees with specialized labour in the manual production combining the use of some machines, Caronel has mass production of Excellence as well as

manufacture in conception carving, gold and other applications that only the human hand could do.

## CUSTOMIZE

To Caronel the desire and willingness of the client are essential elements to consider, for that you have at your disposal a furniture personalization service. If you like to customize some of the finishing or measures we will be happy to receive your order and designing it with brevity.

Our passion is furniture, to see our clients happy is what drives us to do better and want to take our brand across borders with the assurance that you will be satisfied with our work capabilities in a mature and innovative industry as Caronel.

## CONTRACTING
