Rainbow Cabinet

Rainbow Cabinet

The unusual **Rainbow Cabinet** from Tusse is reminiscent of Dutch neoplasticism, but with a sleek and refined form more suitable for contemporary interior design. This modern cabinet is unlike any other we have seen – we would even call it sculptural.

This functional *piece of artwork* is composed of 78 panes of handcrafted stained glass fashioned individually by Tusse artisans. Light shining through the **Rainbow Cabinet** paints the entire surrounding area with a dazzling variety of rich jewel tones, a very creative way to bring color to interior design.
